GIVE YOUR PATIENTS THE GIFT OF EASY DENTURE REMOVAL
DO YOU HAVE PATIENTS OR PRIMARY CAREGIVERS THAT STRUGGLE WITH DENTURE REMOVAL?

Now you can give them a solution with the CHAIRSIDE® Denture Removal Tool. This easy to use tool is designed to be used by the patient, or a caregiver, to assist with the dislodgement of a dental prosthesis including dentures and implant overdentures.

PATIENT FRIENDLY AND EASY TO USE

• Large ergonomic handle for easy, no slip grasping. Bi-directional design for patients with manual dexterity limitations.
• Angled handle facilitates a comfortable approach to the intraoral environment and the extended neck allows the patient to reach prosthetic flanges while keeping the tool at a patient comfortable level (at or below the chin).
• Rounded tip and no sharp edges to prevent soft tissue trauma or prosthesis damage.
